PROFESSIONAL SUMMARY

Third-year BS Information Technology student at Pamantasan ng Lungsod ng Valenzuela with broad technical experience spanning web development, databases, mobile apps, networking, and data analytics. Combines hands-on execution with a leader's perspective, having led a capstone project and delivered real-world systems end-to-end. Consistent 90+ GWA performer who takes full ownership from planning and coordination to writing and shipping the final product. Seeking an OJT opportunity to contribute across disciplines and grow within a professional team.

PROJECT EXPERIENCE

Capstone: iDetect — Mobile-Based Discount Identity Validation System (*Project Lead & Primary Developer*) JavaScript • Dart • Flutter • React.js • Node.js | idetect.it.com

- Led end-to-end development of a 5-portal system for Valenzuela City businesses; comprising an OCR scanner client app, three admin dashboards, and a beneficiary mobile app.
- Core system functionality complete; currently in Capstone I; final refinements and formal defense scheduled for Capstone II.
- Took full ownership from system architecture and coding to documentation and manuscript writing. Managed project coordination, technical decisions, and delivery as team lead.

ARTA Government Digital Survey System (*Full-Stack Developer*) TypeScript • CSS

| [GitHub](#) (Private Repository)

- Built a digital citizen feedback system aligned with Anti-Red Tape Authority (ARTA) standards for government service evaluation
- Replaced manual survey processes with a streamlined, standards-compliant digital platform.

Freelance: Kahidlaw Cafe Website (*Sole Developer*) HTML • CSS • JavaScript • PHP

| coffee-shop-lu6p.vercel.app

- Designed and developed a full-stack website for a coffee shop client, handling everything from client consultation to live deployment on Vercel.

Piso Politiko — Hybrid Tabletop Mobile Game (*Co-Developer*) Unity • C#

- Co-developed a hybrid tabletop-digital game with political strategy mechanics, bridging physical and mobile gameplay experiences.

Slasher Film Game (*Sole Developer*) Unity • C#

- Independently designed and built a slasher-themed mobile game from concept to completion, handling all game logic, mechanics, and assets
